MIHÁLY ORSÓS

DATA SCIENTIST

PROFILE

I am a highly motivated data analyst and programmer with expertise in Python and R. With experience at OTP Bank, I specialize in data analysis, visualization, and web scraping. As a lecturer at CEU, I teach programming, APIs, data extraction techniques, as well as artificial intelligence (AI) and large language models (LLMs). Passionate about innovation, I continuously seek opportunities to expand my skill set and apply data-driven and AI-powered solutions. I enjoy tackling complex challenges and developing efficient, scalable systems.

WORK EXPERIENCE

Freelance Data Analyst and Educator

2022 - PRESENT

- Delivered programming, and AI courses.
- Led data extraction and visualization projects, such as analyzing and publishing EU funding data for Átlátszó, a Hungarian investigative journalism platform.
- Developed BullRanks, an independent data-driven project focused on financial market analysis.
- Created a YouTube channel, goldhandfinance, producing educational content about Bitcoin, cryptocurrency markets, and financial innovation.

Central European University

2018 - PRESENT

Lecturer

- Focusing on Python, data collection, web scraping, and automation.
- Covering key technologies such as APIs, JSON, HTML, and Git to equip students with practical data-handling skills.
- Emphasizing hands-on learning with real-world datasets and problem-solving approaches in Python and R.

OTP Bank

2016 - 2020

IT Developer

- Developed and tested big data ecosystems.
- Analyzed JIRA tickets to improve development efficiency and workflow management.
- Worked on a Keystroke POC to explore innovative solution for third-factor authentication.

PROJECTS

[felhok.hu](#)

A flight search platform that collects the cheapest flights daily using Kiwi API and allows users to filter, sort, and search based on various criteria, including departure time and weekend getaways.

[goldhandfinance.streamlit.app](#)

Developed a Streamlit-based application for my Goldhand Python package, offering real-time stock and crypto analysis with dynamically updating charts and market trends, empowering investors with data-driven decision-making.
